- Concealed Carry Considerations
- Case Studies of Real Self Defense Incidents
- Skill Enhancement Drills with Training Pistols and Red Guns
- No Live Fire with real firearms and ammunition
- Interactions with Law Enforcement
- Experience violent force encounters with active role player scenarios

COURSE DESCRIPTION

Possession of a concealed handgun permit/license is NOT a requirement to attend. GUNOLOGY is an eight hour class, open to all responsible citizens who are interested in learning more about firearms use and safety, within the context of personal defense. This is a "no live fire" class! Breaks will be taken at regular intervals and comfortable, every day dress is encouraged .

If you have considered purchasing a firearm, but are not sure which gun best suits your comfort level, the instructors in this class will provide the students with several makes and models of unloaded firearms to handle and inspect in the classroom. All students are encouraged to bring all of their personally owned handguns (unloaded), and concealment holsters/carriers.

Several students that attend this class may have never touched a firearm before, or have been too intimidated to ask questions at a gun store. The instructors in this class create a "No Judgement Zone" to make all of the students feel comfortable to ask any question they have about firearms or firearms training.

Along with educating students about self defense concepts, and educating them on the different types of firearms, this class also provides the mental and emotional process you will experience in a real life violent force encounter. The instructors will explain in detail how your body reacts under stress, and the effect stress has on you fine motor skills. The students will then be allowed to participate in recreated violent force encounter scenarios to experience the mental, emotional, and physical feelings when choosing to use your firearm to protect yourself or another person.

To increase your comfort level in using a firearm, you must first increase your confidence in knowing how to react when a threat appears. By having a better understanding of how you will react in a violent force encounter, the student will be able to Observe, Decide and Act much faster the next time they come across a similar encounter. This then increases the student's comfort level in the use of their firearm.

ATTENDANCE and Required Equipment

- Participants are expected to be punctual, prepared, and take an active role in participation for the duration of this course. Please wear comfortable, non-restrictive clothing. Students are encouraged to bring their own note taking items, personally owned firearms, and concealment holsters/carriers. **NO LIVE ROUNDS OF AMMUNITION ARE ALLOWED IN THE CLASSROOM.** You must check in with the instructors before bringing your own unloaded firearm into the classroom. The instructors will complete periodic safety pat downs throughout the day of class to ensure no live ammunition is brought into the classroom.

COMPLETION REQUIREMENTS

Attendees must complete a written exam administered by the instructors to receive a course certificate of completion.

DISCLAIMER

Information contained in this syllabus was, to the best knowledge of the instructor, considered correct and complete when distributed for use. The instructor reserves the right, acting in accordance with any standing departmental policies, to make changes in course content or instruction techniques without notice or obligation.
